

Novelty 2023: BLISS

FEELING OF HAPPINESS

With its impressive calacatta marble design and PARADISE surface decor, the BLISS wall series from AGROB BUCHTAL transports the viewer to distant worlds. The natural stone look is powerfully accentuated in the generous 35 x 100 cm format, optionally glossy or on a silky opaque matt glaze.

Exotic, fresh and mysterious: PARADISE is something for explorers. The décor, corresponding to the 35 x 100 cm basic tiles, is laid freely and complements the surface to create an individual overall look.

Whether redesigning or renovating bathrooms: BLISS is made for it. In interaction with existing series from Agrob Buchtal, the collection always offers new, varied material combinations and design variants.

Boundless freedom: The classic, timeless marble design of BLISS can be combined with many established floor series - here side by side with the wood look of WALDEN. Rediscover familiar worlds, create new worlds - that is the credo here.

The characteristic diagonal grain of fine and wide veins creates an almost flawless image of nature. An expressive look and feel that also scores points with its sustainable and practical 6 millimetre material thickness and antibacterial Hytect finish.

Felicity and pleasure: What else could you want in the bathroom? The overall impression is that the series more than lives up to the meaning of the word BLISS.
