# Fascinating design and technology *SURF*® by Gerloff

Innovative technology offered by the bathroom system specialist Gerloff and high-quality porcelain stoneware tiles by AGROB BUCHTAL give rise to a pioneering product: the *SURF*® washbasin and shower floor system by Gerloff. Thanks to its purist design, great variety of materials and innovative drainage technique, *SURF*® is predestined for the aesthetically demanding design of modern bathrooms. Whether featuring a cement, wood, concrete or terrazzo look, the system offers plenty of scope for design as washbasins and shower floors can be combined with all tile series and surface finishes. If so desired, the washbasin and wall tiles can be merged to form a visual unit, whereby the washbasin can be adapted to any installation situation.

The drainage system has been given an entirely new design: a narrow groove of low depth milled into the tile surface with a uniform slope for collecting the water draining off linearly. It empties itself thanks to the capillary effect and channels the water towards the point discharge. The same drainage technique is also integrated in the new jointless shower floor system.

Designed for rapid and simple mounting, the shower floor and washbasin are also marked by their excellent ease of maintenance. The antibacterial Hytect technology, which eliminates pollutants and creates a healthy indoor climate, minimises cleaning of the ceramic surfaces. Both systems are supplied ready for laying.

## Ideal tiles for designer showers

The shower floor of the respective series is available in two versions: as SURF® Basic with metal discharge cover or SURF® Slot with an elegant, practically invisible tile discharge cover. The drainage technique is incorporated in the tile ready for laying.

### Beautiful and functional

- » Minimalist design
- » Various surface finishes
- » Jointless
- » Easy to clean
- » Siphon screwed to the tile in a watertight manner
- » Low-cost
- » Quick, simple installation

## SURF® shower floor

**Basic\*** 60 x 120 cm

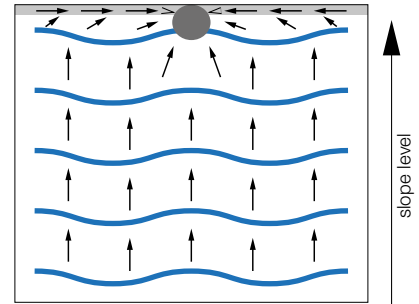

**Slot\*** 60 x 120 cm

Note: The shower floor is supplied inclusive of the siphon in the rigid foam block with sealing material and discharge cover.

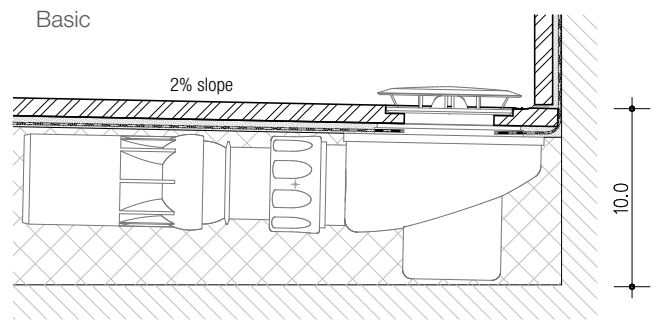

\*Other versions also possible on request, see next page.

## The aesthetic tile washbasin

The washbasin is available in three sizes: SMALL (40 x 60 cm), MEDIUM (45 x 80 cm) and LARGE (55 x 120 cm). A corresponding choice of surface finishes combined with matching, large-size wall tiles means the washbasin and wall can be designed as an optical unit.

### Elegant and versatile

- » Consistent purist design
- » Various surface finishes
- » Suitable for any installation situation
- » Low-cost
- » Connection to all commercially available drain valves
- » Easy to clean
- » Jointless
- » Quick, simple installation

### SURF® washbasin

<b>small</b>	40 x 60 cm
<b>medium</b>	45 x 80 cm
