

Novelty 2023: LOUNGE

THE GENTLE POWER OF THE ELEMENTS

A mysterious hint of rainforest in the shower area: exotic-looking leaves as natural companions to the stone set lively accents within the collection.

The GARDEN surface decor unfolds with 9 non-directional leaf motifs in delicate shades of green on an adaptable tile size of 30x60 cm.

Creative freedom for every living space: the porcelain stoneware formats of the LOUNGE series range from exclusive to practical with 30x60, 60x60, 60x120 and 120x120 cm as well as a 5x5 cm mosaic and leave nothing to be desired. With slip resistance class R10/A+B, the floor tiles in every size meet the highest safety standards.

Calm aesthetics is the nature of the LOUNGE series by Agrob Buchtal: Fine-pored relief unglazed floor tiles, here as a generous lounge format of 60x120 cm in the shade 'Warm Grey', look like warm stones and invite you to walk barefoot. The colour palette includes four soft natural shades in the porcelain stoneware and two matching, lighter colours in the earthenware for the wall.

The exclusive STONE series decor: visually an eye-catcher and atmospherically a calming pole that elegantly continues the LOUNGE basic design, in the picture 30x60 cm 'Dark Anthracite' for the floor and 'Grey White' for the side walls. The soft grain of the natural stone look is shown off to its best advantage in the 30x90 cm tile format.
