

Noveltiy 2023: SENTO

# JAPANESE MINIMALISM TRANSLATED INTO MODERN LIVING

The purist concrete look of the SENTO series translates Japanese minimalism into the living language of the 2020s and creates space and calm for a modern loft living interior. The floor tiles, here in the shade ‚Pale Mud‘, are available in four warm colours in the formats 30x60, 60x60 and 60x120 cm.

The fine, slip-cut sticks are available in four rich shades: ‚Pacific Blue‘ (pictured here), ‚Sky Aqua‘, ‚Earth Red‘ and ‚Lava Black‘.

Like a Japanese sushi roll mat, the STRIPE cut decoration nestles into every niche. The velvety, delicate, slightly moving surface with shimmering gloss effects in the recesses enlivens the interior design and creates a valuable highlight.

Soft tone-in-tone colour contrasts and the stone-matt, relief surface also transfer the typicality of SENTO to the wall design. The light 'Pale White' colour of the wall tiles can be combined with all floor colours. All basic tiles in the series are Hytect-finished.

The clear, reduced design principle of SENTO can be consistently implemented in all areas through the colour and format selection. The 'Pale White' wall tiles are available in the formats 30x60 and 35x100 cm.
