

Novelty 2024: TRIO

# PATCHWORK, THAT ALWAYS FINDS ITSELF ANEW

Cement stone, terrazzo and glazes form the design triad of the TRIO series. Thanks to a well thought-out range of formats, the collection can cover all surfaces and uses of modern mixed-use concepts from inside to outside.

A powerful chord in the TRIO triad are the colour glazes in 15 x 15 cm and 4 shades: a clear white and three slightly tinted mixed colours with an elegant luminosity that provides warm, cosy accents, especially in modern, open-plan rooms.

TRIO is a finely coordinated design construction kit for private and public designs. The basic mood always remains reduced, architectural and timeless - typically AGROB BUCHTAL.

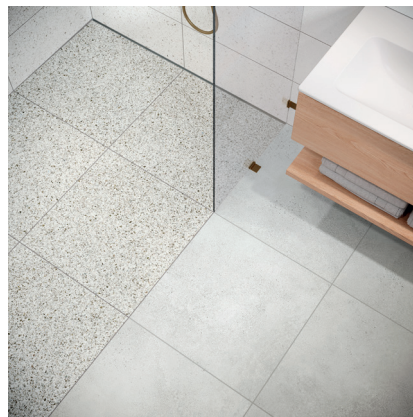

Wonderfully relaxed bistro atmosphere with TRIO. Here with the floor tile in cement stone look 60x60 in „mud grey“. The counter is lined in the Lines 15x15 decor in the „platinum“ colour scheme.

The colour decor of the TRIO triad is available in two variants: COLOR with a velvety matt plain glaze and LINES, high-gloss and with a grooved relief that can be experienced visually and haptically. Can be laid together or separately on small or large surfaces.

Terrazzo and cement stone look good side by side in all variants. For the basic tiles in cement look, formats of 30 x 60, 60 x 60 and 60 x 120 cm are available, for the terrazzo floor tiles a classic 60 x 60 cm square.

TRIO makes the classic Terrazzo available as a 9 mm thin floor tile and 6 mm wall tile for modern demands. The Terrazzo design mixes up the simple cement stone look of the basic tiles with lively contrasts or blends in close to the colour.
