

Novelty 2024: Factory

PERFECTLY IMPERFECT AS LIFE ITSELF

FACTORY creates the casualness of lived-in spaces, for example in trendy gastronomic concepts.

FACTORY makes a strong statement in the refurbishment of old buildings and the furnishing of modern loft architecture.

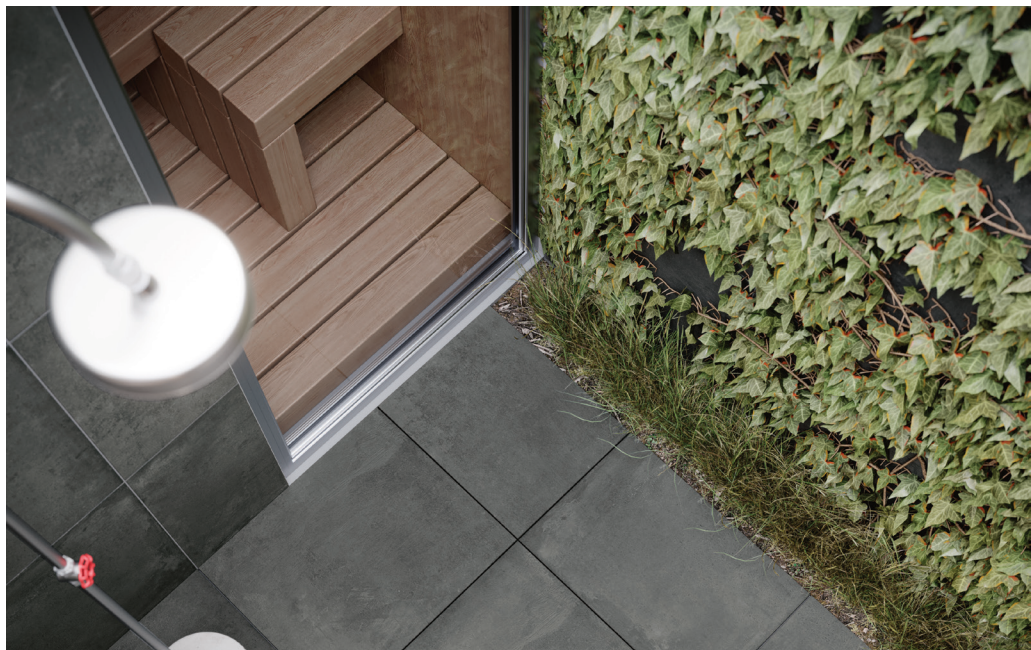

Used look for the room: Aged concrete floors, on which time has left its mark, were the inspiration for the series.

Coolness and well-being become one in the informal style mix of factory charm and modern country. Colour tones from both worlds cater to individual design preferences.

With formats in 30 x 60, 60 x 60 and 60 x 120 cm as well as the 30 x 120 cm stair tile with R10/A+B slip resistance, all areas can be covered.

The 60 x 60 cm terrace tile in the series is available in all the colours of the basic tiles and extends the interior with slip resistance class R11/B to the outside without slipping.
