

Botanic Stone

Floor tile greige, 60 x 120 cm · Stair tile greige, 30 x 120 cm · Skirting greige, 7 x 60 cm

Natural stone reinterpreted

The Botanic Stone series is inspired by colored sandstone and combines the look of clay, limestone and gypsum rock to create a calm, natural surface. Fine structures and gentle veins lend it timeless depth. Five warm mixed colours make the floor tiles versatile to combine, while a delicate relief emphasises their authentic character. Matching patio tiles, stair tiles and wall tiles in pearl white create a harmonious overall look. The Matisse decoration reinterprets floral cut-outs and creates an expressive, large-scale décor.

Floor tile anthracite, 60 x 120 cm
